EXPERIENCE

Freelance web developer

Sebastian Gelotte AB

MAY 2020 –

Skills & Tools
● REST / GraphQL ● ReactJS ● Figma ● GatsbyJS
● Component library ● Netlify ● Serverless ● CI/CD

Web development with a focus on static sites, serverless and modern frameworks and workflows. I bring value to a project through my years of experience and my knowledge of the ecosystem, always keeping up to date to be able to make the best decisions for each project.

Front-end developer

Wipcore / Mardi Gras.Digital

NOV 2017 – MAY 2020

Skills & Tools
● REST / GraphQL ● ReactJS ● Figma ● GatsbyJS
● Component library ● Style guide ● Razor ● VueJS

Front-end development for a variety of clients, as well as a complete redesign of inhouse CMS and company website. Introduced the static site/serverless ecosystem as an alternative to Razor and .net and built an e-commerce store on GatsbyJS as a proof of concept.

Front-end developer

Jetshop

NOV 2013 – NOV 2017

Skills & Tools
● HTML ● SCSS ● jQuery ● e-commerce ● Adobe XD
● Conversion ● SEO

Design and implementation of front-end for a variety of e-commerce customers. Big focus on conversion. Frequent meetings with clients during a project to ensure best possible end result.

EDUCATION

Chalmers University of Technology

IT, Programming, Graphics, HCI

2006 – 2010

Information Technology, thesis in computer graphics/interaction design.

SOME PROJECTS

easy2perform.se

MAY 2020 – DEC 2020

Skills & Tools
● GatsbyJS ● ReactJS ● styled-components ● AWS
● Serverless ● Figma ● PWA ● CI/CD

Booking platform for courses. Redesign and reimplementation of online presence, including website, logo, marketing material, social media and analytics. Using a headless CMS (Contentful) and a static site host (Netlify), I managed to cut the fixed cost of running the platform by nearly 100%, while still providing a more feature-rich and scalable platform.

trevligmjukvara.se

NOV 2019 – JAN 2020

Skills & Tools
● GatsbyJS ● ReactJS ● SEO ● styled-components
● Cloudinary ● three.js ● PWA ● CI/CD

Website for the Swedish podcast Trevlig Mjukvara. Custom audio player, self-updating based on RSS-feed, dynamic share images with Cloudinary and WebGL animations with three.js. SEO specifically tailored for podcasts.

jaktia.se

2018 – 2019

Skills & Tools
● Handlebars ● VueJS ● REST ● Google maps API
● Razor ● SCSS ● SEO ● Component library

Front-end for e-commerce site while working at Wipcore/Mardi Gras.Digital, together with my team. Development was focused on building reusable components, a design system and a style guide. SEO and accessibility were key words during the development.
